Dear Larry Kane & Architectural Advantage,

I just want to express my thanks for the excellent job you did with the installation of the new roof on my home!

I am very happy and satisfied with the installation process of the new roof from beginning to end. Great care was taken in the removal of the old roof making sure not to damage any of the landscaping in my yard or my neighbors homes. The workman doing the installation were very knowledgeable, skilled, conscientious, and courteous. The cleanup after the project was impeccable.

My home is located within a "home owners association" with very strict architectural guidelines. I could not be more pleased with the attention given to details to make sure my new roof matched other existing structures in my neighborhood. Something that also impressed me was when someone from your company came and personally inspected the roof and asked for my satisfaction after the first major rainfall. The personal attention and follow-up was greatly appreciated!

Most happily, I would recommend the work of Architectural Advantage to others for a job well done!

Thank you,
Father Timothy M. Daw
